Priority Routine [X] Urgent [ ] Emergency [ ] **Affected Release** B **Change Class** II

Title (description) Reassignment of S-Designor Enterprise license

Documents Affected	Source Nos (RID, NCR, etc.) or Tech Reference
	PDPS Database

RTM Change [ ] **Start New Baseline** [ ]

Problem

The PDPS subsystem manages it own Sybase database. We therefore have extensive need for the S-Designor Enterprise tool in doing our database design. PDPS Release B lacks its own license for the tool. It is has become increasingly inconvenient to have to rely upon the tool installed in Room 1057.

Proposed Solution

We have been advised by Evan Winston that the copy of S-Designor on "stimpy", Durga Kuchipudi's workstation, is no longer needed by them (see attachment). We therefore request that this copy of S-Designor be transferred to Greg Dobbins, the database engineer for PDPS Release B, and installed on his PC in Room 3035E. Greg will also need an upgrade to a 17" monitor in order to use this tool, comparable to that on the Swan PC in Room 1057.
